

Ceramic & Porcelain Impregnator

- Protects against Water & Oil spillages
- Long Lasting
- Invisible coating
- Low Odour - No Volatile Solvents
- Easy to Use
- Contains Natural Plant Extracts
- **NEW Advanced Resin-Technology™**

Ceramic & Porcelain Impregnator with its **New Resin Technology™** produces an invisible protective shield on the tiles to prevent staining from both water and oil stains.

Tiles treated with **Ceramic & Porcelain Impregnator** will repel spills, dirt and grime making cleaning and maintenance considerably easier, helping to prevent premature replacement. **Ceramic & Porcelain Impregnator** is particularly useful in kitchens, utility areas, bathrooms, shower rooms, dining rooms and all other areas where spillages may occur.

COVERAGE: Approx. 20 m² per litre on highly absorbent surfaces; up to 45 m² on less absorbent and polished surfaces

PRODUCT ADVICE: Always test product for suitable colour change or enhancement on a spare tile or in an inconspicuous place before using.

DIRECTION FOR USE: Invert container before use
- Ensure the area to be treated is clean and free from dust and dirt.

Apply 20-50ml per metre, using a clean dry cloth, applicator, sponge or roller; apply a thin and even coat over the area to be treated (DO NOT SPRAY).

Remove any excess product with a clean dry cloth; allow too dry before a second application is applied.

PLEASE NOTE: Ensure under floor heating is switched off and allow floor to cool before applying this product.

DRYING TIME: May vary from floor to floor; product should be touch dry after 2-3 hours, and fully cured within 24-36 hours.

MAINTENANCE: To preserve the finish of your floors, regular maintenance is required. We recommend using Nu-Life's **Professional Care & Maintainer**
