

Grout Impregnator

- Protects against Water, Oil & Grease spillages
- Prevents Staining
- Long Lasting - Invisible coating
- Low Odour - No Volatile Solvents
- Easy to Use
- Contains Natural Plant Extracts
- **NEW Advanced Resin-Technology™**

A professional product for impregnating Grout lines, preventing staining from water, oil and grease based spills.

Grout Impregnator with its **New Resin Technology™** produces an invisible protective shield to grout lines, helping to prevent staining from water, oil & grease spillages, making cleaning and maintenance considerably easier, helping the grout lines to stay clean for longer.

Grout Impregnator is particularly useful in kitchens, utility areas, bathrooms, shower rooms, dining rooms and all other areas where spillages may occur.

COVERAGE: Approx. 10-20 m² per litre on highly absorbent grouting and up to 45 m² on less absorbent grouting

PRODUCT ADVICE: Ensure under floor heating is turned off and allow floor to cool prior to application. Test product for any colour change in an inconspicuous area before use.

DIRECTION FOR USE: Invert container before use - Ensure the area to be treated is clean and free from dust and dirt. Should the grout require cleaning, use Nu-Life's **Professional Grout Cleaner**, rinse with clean water and dry thoroughly before applying **Grout Impregnator™**

Apply using a syringe, pipette or sponge; apply a thin and even coat to the grout lines. Remove any excess product from surrounding tiles with a clean dry cloth and allow too dry before applying a second or third coat if necessary.

DRYING TIME: May vary from floor to floor; product should be touch dry after 2-3 hours, and fully cured within 24-36 hours

MAINTENANCE: Regular maintenance should be undertaken using Nu-Life's **Professional Grout Cleaner**.

TECHNICAL ADVICE: For further product advice call free 0800 695 0823 or visit www.stonecareuk.co.uk.

SAFETY PRECAUTIONS: Use only in a well ventilated areas. Wear appropriate safety gloves, eye protection and respirator when using this product. In confined areas where adequate ventilation is not available, respirators or masks must be worn.
