

Stain-Gard SB Impregnator

- Protects against Water & Oil spillages
- **NEW** Advanced Resin-Technology™
- Prevents Staining - Invisible coating
- Low Odour
- Allows Natural Stone to Breathe
- Easy to Use
- Contains Natural Plant Extracts

The Professionals choice for impregnating natural & manmade tiles. **Stain-Gard SB™**, with its New **Advanced Resin-Technology™** forms an invisible, protective shield on the surface and penetrates deep into the stone, to help prevent staining from both water and oil based spills.

Stain-Gard SB™ (Impregnator) will help prevent permanent staining of surfaces by repelling daily spills, dirt and grime, making cleaning and maintenance considerably easier, helping to prevent premature replacement of the tiles.

Stain-Gard SB™ can be used on terrazzo, travertine, sandstone, limestone, brick sets, York stone, amalgamated stone, slate, un-glazed Ceramic tiles and is particularly useful in kitchens, utility areas, bathrooms, shower rooms, dining rooms and all other areas where spillages may occur.

COVERAGE: Approx 20-45m² per litre (20-50ml per m²) on polished/less absorbent surfaces. 10-20m² per litre on absorbent surfaces (50-100 ml per m²).

PRODUCT ADVICE: Ensure under floor heating is turned off and cooled prior to application to prevent premature drying. Test product for suitable colour change or enhancement on a spare tile or in an inconspicuous area.

DIRECTION FOR USE: Invert container before use - Use only in a well ventilated area. The surface to be treated must be clean, free from any residues dust and dirt. If required, use Nu-Life's **Wax & Residue Remover** prior to application

Using a clean dry cloth, applicator, sponge, brush or roller, apply a thin and even coat over the area to be treated. When dry, apply a second coat (more absorbent surfaces may require additional coats). Wait until most of the product has been absorbed and use **Stain-Gard SB™** applied by cloth to remove any excess product; buff up and polish areas with a clean dry cloth.

DRYING TIME: May vary from floor to floor; product should be touch dry after 1-3 hours, and fully cured within 24-36 hours

MAINTENANCE: After applying **Stain-Gard SB™** and to ensure your floors durability and "new look", it is vitally important to Clean and Maintain at regular intervals with Nu-Life's **Professional Care & Maintainer**.

TECHNICAL ADVICE: For further product advice call free 0800 695 0823 or visit www.stonecareuk.co.uk

SAFETY PRECAUTIONS: Ensure adequate ventilation throughout the application and drying process. Wear appropriate safety gloves, eye protection and respirator when using this product.

HEALTH & SAFETY INFORMATION

HARMFUL: May cause lung damage if swallowed UN1268

- **MAY CAUSE LONG TERM ADVERSE EFFECTS**
- **ON THE ENVIRONMENT**
- ONLY USE IN A WELL VENTILATED AREA
