

Stain-Gard WB Impregnator

- Low Odour
- Protects against Water & Oil spillages
- Helps Prevent Staining
- Long Lasting - Invisible coating
- Easy to Use
- Contains Natural Plant Extracts
- **NEW Advanced Resin-Technology™**

Stain-Gard WB™ is a new and unique water based impregnator, which is a safe, low odour alternative to solvent impregnators. **Stain-Gard WB™** can be used for impregnating most natural stone and unglazed Ceramic tiles, helping to prevent staining from water and oil based spills. With its New **Advanced Resin-Technology™** produces an invisible, highly protective shield, both within the stone and on the surface.

Stain-Gard WB™ will help prevent the stone from becoming stained by repelling dirt and grime, making cleaning and maintenance considerably easier, preventing premature replacement. For use on marble, granite, terrazzo, travertine, sandstone, limestone, brick sets, York stone, amalgamated stone, slate and un-glazed ceramic tiles. Particularly useful in kitchens, utility areas, bathrooms, shower rooms, dining rooms and all other areas where spillages may occur.

COVERAGE: Approx 20-45m² per litre (20-50ml per m²) on polished/less absorbent surfaces. 10-20m² per litre on absorbent surfaces (50-100 ml per m²).

PRODUCT ADVICE: Ensure under floor heating is turned off and allow floor to cool prior to application. Test product for any colour change in an inconspicuous area before use.

DIRECTION FOR USE: Invert container before use - Use only in a well ventilated area. The surface to be treated must be clean, free from any residues dust and dirt. If required, use Nu-Life's **Wax & Residue Remover** prior to application

Using a clean dry cloth, applicator, sponge, brush or roller, apply a thin and even coat over the area to be treated. When dry, apply a second coat (more absorbent surfaces may require additional coats). Wait until most of the product has been absorbed and use **Stain-Gard WB™** applied by cloth to remove any excess product; buff up and polish areas with a clean dry cloth.

DRYING TIME: Product should be touch dry after 3-4 hours, and fully cured within 24-36 hours

MAINTENANCE: Maintenance of your floors should be undertaken at regular intervals. For daily or routine cleaning use Nu-Life's **Professional Care & Maintainer**. For higher levels of hygiene use Nu-Life's **Anti Bacterial Floor Cleaner**

TECHNICAL ADVICE: For further product advice call free 0800 695 0823 or visit www.stonewareuk.co.uk.
