

Terracotta Impregnator

- Protects against Water & Oil spillages
- Prevents Staining
- Long Lasting
- Invisible coating
- Easy to Use
- Contains Natural Plant Extracts
- **NEW Advanced Resin-Technology™**

Terracotta Impregnator will help prevent the stone from becoming stained, repelling daily dirt and grime, making cleaning and maintenance considerably easier, helping to prevent premature replacement. Particularly useful in kitchens, utility areas, bathrooms, shower rooms, dining rooms and all other areas where spillages may occur.

Terracotta Impregnator is a unique and professional strength Water Based impregnator, specially formulated for impregnating Terracotta Tiles, Clay Slabs, and un-glazed made tiles preventing staining from water and oil based spills. Using New **Advanced Resin-Technology™**, it produces an invisible and highly protective shield, both within the stone and on the surface.

COVERAGE: Approx. 10 m² per litre on highly absorbent stone; up to 15 m² on less absorbent stone.

PRODUCT ADVICE: Ensure under floor heating is turned off and allow floor to cool prior to application. Test product for any colour change in an inconspicuous area before use.

DIRECTION FOR USE: Invert container before use - Ensure the area to be treated is clean and free from dust and dirt. Dependant on the porosity of the stone apply 60-100ml per metre using a clean dry cloth, applicator, sponge, brush or roller; apply a thin, even coat over the area to be treated.

Allow 30 minutes before applying a second coat. Remove any excess product with a clean dry cloth. Allow to dry before buffing with a clean dry cloth.

DRYING TIME: Product should be touch dry after 1-2 hours, and fully cured within 24-36hours

MAINTENANCE: For increased protection, apply **Terracotta Sealer**. For high gloss, apply **Terracotta Hi-Gloss Liquid Wax**, and maintain with Nu-Life's **Professional Care & Maintainer**.

TECHNICAL ADVICE: For further product advice call free 0800 695 0823 or visit www.stonecareuk.co.uk

SAFETY PRECAUTIONS: Use only in a well ventilated areas. Wear appropriate safety gloves, eye protection and suitable respirator.
